

10000000

COMMENCEMENT
THE UNIVERSITY OF MARYLAND COLLEGE PARK
MAY 27, 1986

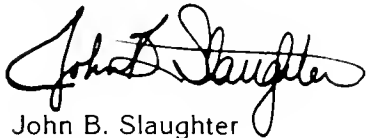

Chancellor's Message to the Graduates

It gives me great pleasure to congratulate each of you who is receiving a degree today. The College Park Campus community joins me in commending you on this singular accomplishment and in wishing you well in your future endeavors. We are proud of your success in achieving today's goal, and we hope that you carry the knowledge and talents you've developed into an exciting and challenging future.

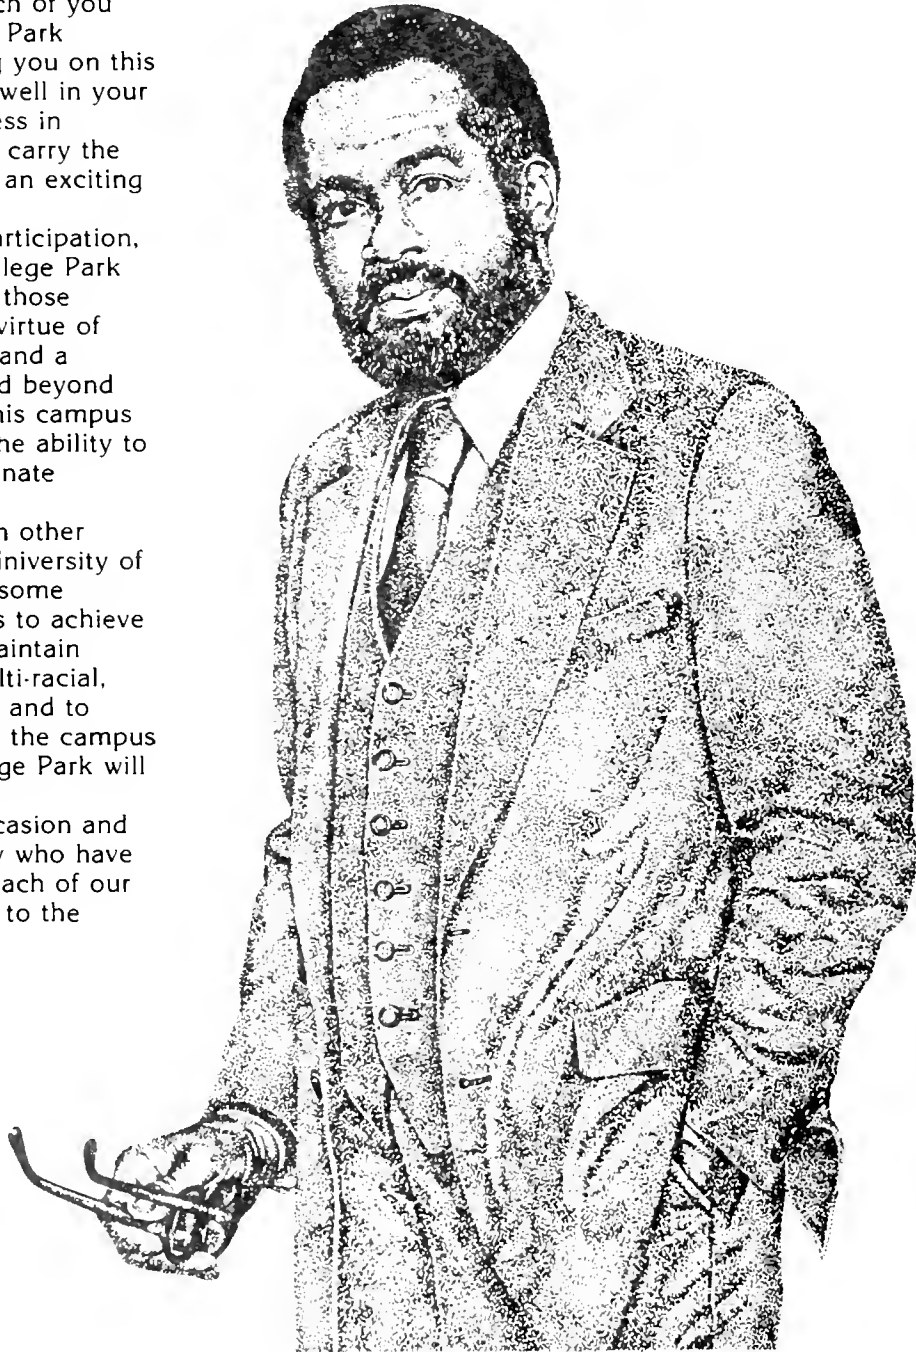

Each of you, through your presence and participation, has made a contribution to the life of the College Park community. As you have grown and learned, those around you have learned from you. Now, by virtue of your achievements, you have an opportunity and a responsibility to enrich and enhance the world beyond the campus. I hope that each of you leaves this campus with both training for challenging work and the ability to be a clear-thinking, articulate, and compassionate member of our society.

As you pursue your goals and participate in other communities, I ask that you remember The University of Maryland College Park. This campus has set some important goals for itself and you can help us to achieve them. We want to continue to achieve and maintain academic excellence, to become a model multi-racial, multi-cultural, multi-generational community, and to improve the quality of life for all members of the campus community. Your continuing interest in College Park will help us to achieve those goals.

I congratulate you again on this special occasion and extend a warm welcome to friends and family who have come to share it with you. We take pride in each of our graduates and in the contributions you make to the larger community.

John B. Slaughter
Chancellor

Order of Convocation

May 27, 1986
9:30 a.m.

Cole Student
Activities Building

Presiding
Dr. John B. Slaughter
Chancellor
College Park Campus

Master of Ceremonies
C. John Sincell
Communication Arts and
Theatre

Processional
Marche Militaire
by P. I. Tchaikovsky

1986 Class Gift

Benediction
The Reverend Elizabeth
Platz
Lutheran Chaplain

Alma Mater
HAIL! ALMA MATER!
Hail to thee, Maryland!
Steadfast in loyalty,
For thee, we stand,
Love for the Black and
Gold
Deep in our hearts we
hold,
Singing thy praise forever,
Throughout the land.

Recessional
Symphonic Wind Ensemble
Conductor, Mr. Wakefield

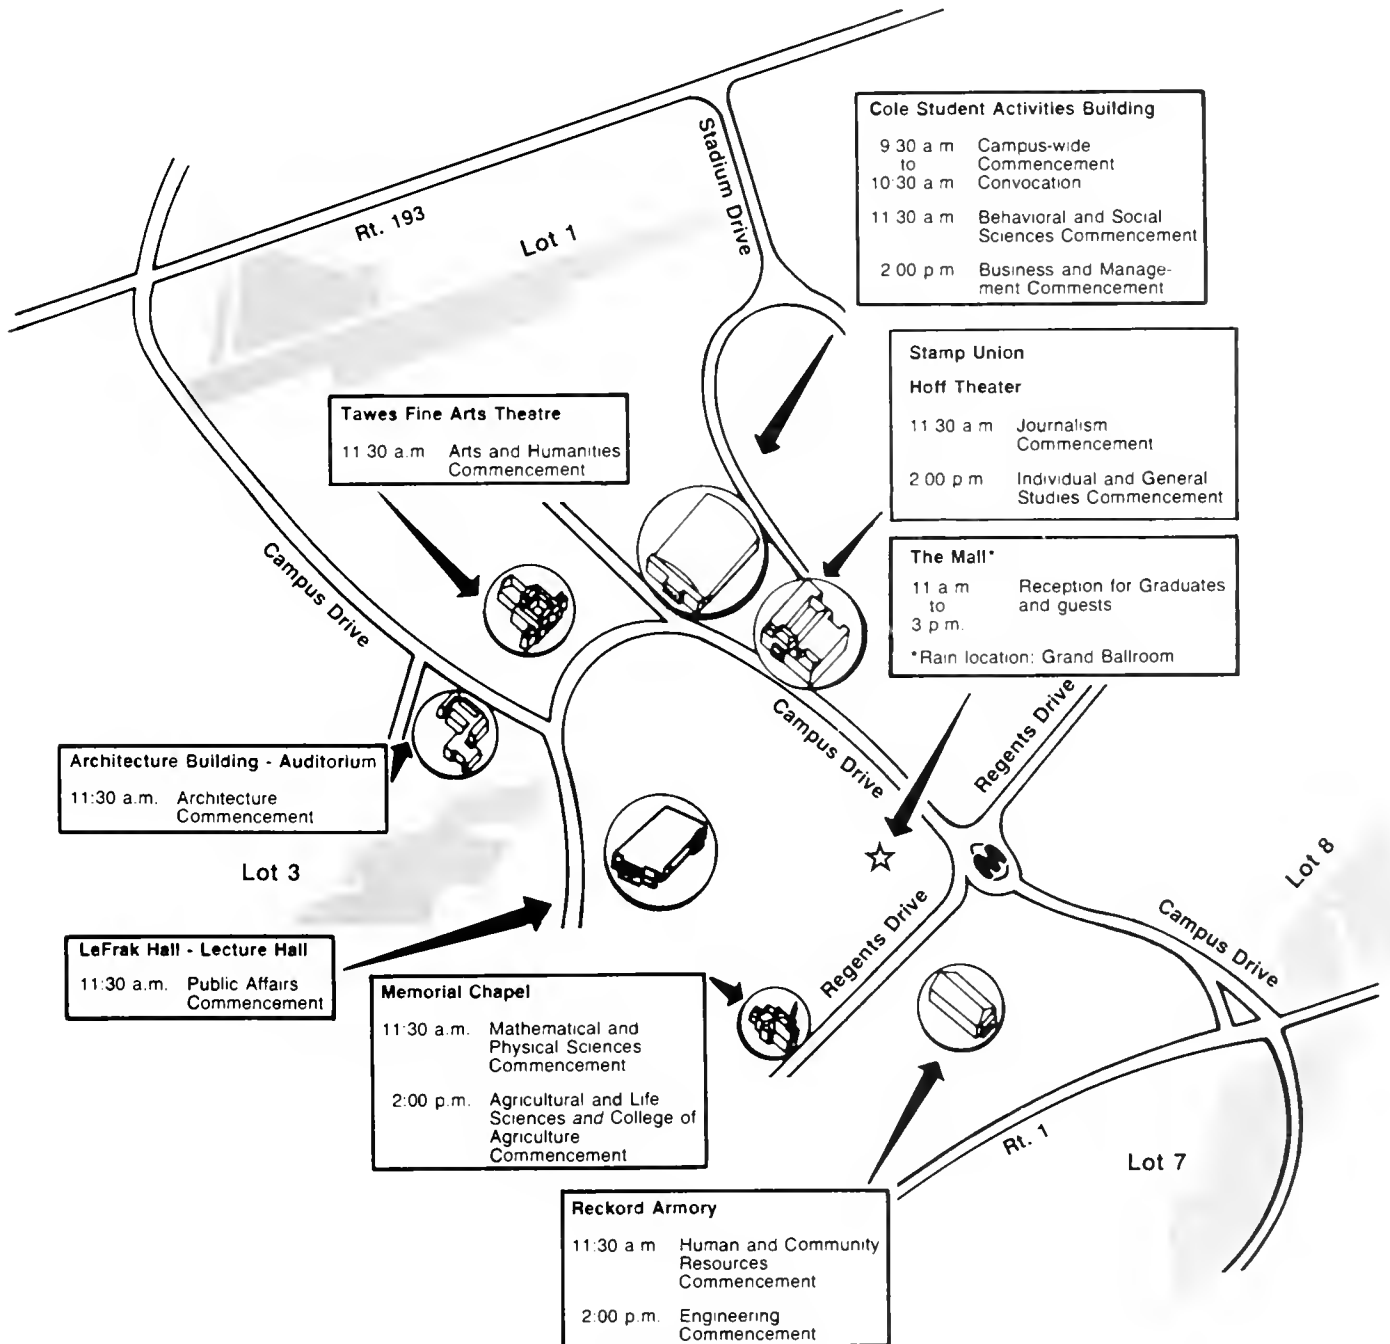

Schedule of Events

Following the Commencement Convocation, individual commencement exercises for Divisions, Colleges, and Schools will be held at several campus locations. Ceremonies are scheduled to begin at 11:30 a.m. and 2:00 p.m. *Please refer to the map on the opposite page for specific times and places.*

Graduates, their families and friends, are cordially invited and encouraged to join with University officials and members of the faculty at a reception to be held on the Mall between the hours of 11 a.m. and 3 p.m.

Limited shuttle bus service is available providing free transportation across the campus throughout the day.

The College Park Campus and the University

The Graduates

Students graduating today from The University of Maryland College Park follow in the footsteps of many notable UMCP alumni who have distinguished themselves in such fields as science, entertainment, arts, journalism, business, law, medicine and government.

While he was a graduate student in mathematics at College Park, Herbert A. Hauptman (Ph.D. '54), worked simultaneously at the Naval Research Laboratory to devise a method for mapping three-dimensional structures of molecules. Three decades later he and Jerome Karle, his long-time collaborator at NRL, won the 1985 Nobel Prize in Chemistry for their pioneering research. Dr. Hauptman was awarded an honorary Doctor of Science degree by UMCP in 1985.

One of the youngest UMCP graduates ever, Charles Fefferman ('66), received a joint degree in mathematics and physics at age 17. Now a world-class mathematician and professor at Princeton University, he holds the Fields Medal, the most prestigious mathematics award.

NBC News anchor Connie Chung ('69) started her career at UMCP's *Diamondback* newspaper and the campus radio station WMUC.

One of the University's most devoted sons is A. James Clark ('50), president of the George Hyman Construction Co. and president and chairman of CEI Construction Inc., the umbrella organization for engineering and construction companies that include OMNI and Hyman. A member of the University's Board of Regents since 1981, Clark in 1983 made a major contribution to the College of Engineering which led to the establishment of the A.J. Clark Chair in Construction Engineering and Management.

Two-time Pulitzer Prize-winning journalist and science writer with the Baltimore *Evening Sun* Jon Franklin ('70) recently joined the UMCP faculty as a full-time professor of journalism.

Other notable alumni include former Metropolitan Opera star and concert artist Carmen Balthrop ('71); George V. McGowan ('51), president of Baltimore Gas and Electric; Karl W. Meyer ('49), president of the University of Wisconsin, Superior Campus; Maryland's 5th District Congressman Steny Hoyer ('63); Tom McMillen ('74) of the Washington Bullets, who was a Rhodes Scholar and member of the 1972 U.S. Olympic basketball team; Mary Stallings Coleman ('35), the first woman elected to the Supreme Court of Michigan; Fred

O'Green ('49), president of Litton Industries, Inc.; Grace Rogers Cooper ('46), retired Curator of Textiles, Smithsonian Institution, and James R. Buckler ('70), current Director of the Smithsonian's Office of Horticulture.

The Campus

College Park boasts one of the ten largest enrollments of any campus in the country. Undergraduates enrolled in fall 1985 numbered 30,556 and graduate students 8,123 for a total enrollment of 38,679. This year's College Park operating budget is approximately \$327.1 million, including financial aid for some 19,000 students.

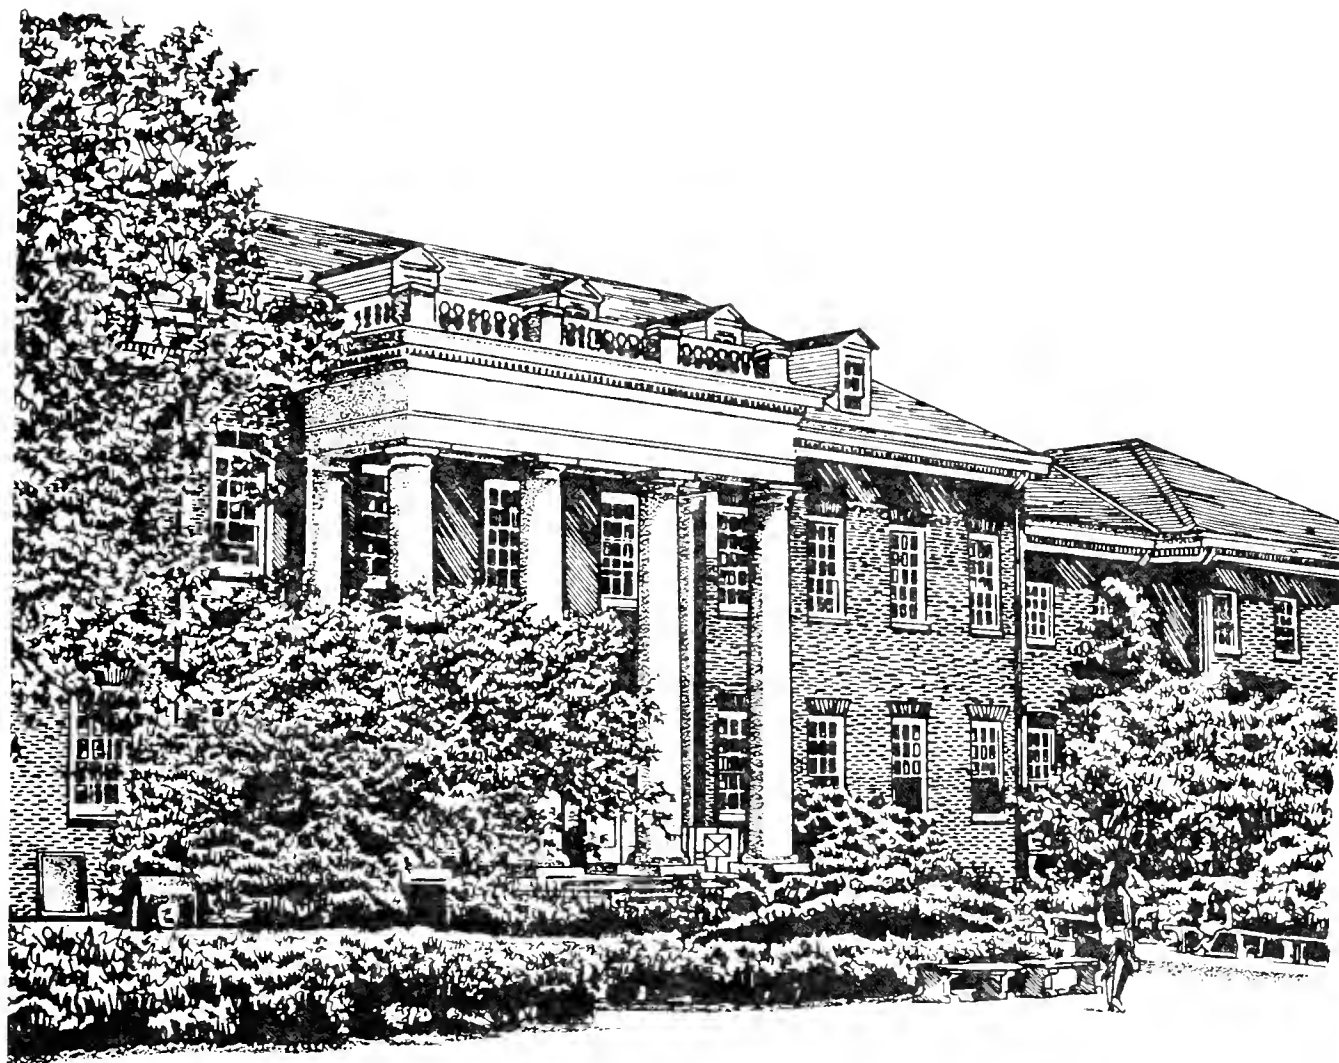

Students can choose from more than 125 undergraduate and 80 graduate programs leading to degrees. In 1984-85, the University awarded 5,220 bachelor's, 1,016 master's, and 373 doctoral degrees. In the number of doctorates granted annually, the University ranks among the top 30 in the nation.

History

The University began in Baltimore in 1807 as a faculty-owned College of Medicine, which granted the M.D. degree. Five years later, more degrees were added when the college was renamed The University of Maryland. The first dental school in America, the Baltimore College of Dental Surgery, became a part of the University in 1840. Later, the University opened schools of pharmacy, law and nursing.

The College Park Campus opened in 1859 under a charter secured in 1856 by a group of Maryland planters. Then called the Maryland Agricultural College, it became one of the original land-grant schools in 1865. After a disastrous fire in 1912, the state acquired control of the College and paid to rebuild it.

The present form of The University of Maryland dates back to a 1920 act of the state legislature joining the state-owned institution at College Park with the professional schools in Baltimore. The move created The University of Maryland College Park (UMCP) and The University of Maryland at Baltimore (UMAB). Three other campuses have since been added: Baltimore County (UMBC) in Catonsville; Eastern Shore (UMES) in Princess Anne; and the worldwide University College (UMUC), headquartered in College Park.

Stephen A. Darrow

Libraries

Libraries on the College Park Campus include approximately 1.6 million volumes, 19,800 subscriptions to periodicals and newspapers, and more than 2.3 million units of microform. The Hornbake (Undergraduate) Library, for one, is among the nation's largest, with a seating capacity of 3,600.

Research Facilities

Among the exceptional research facilities on the campus are a computer vision laboratory; a full-scale low velocity wind tunnel; several smaller hypersonic helium wind tunnels; a 500 liter computer-controlled fermentation system for research in bioprocess scale-up programs; computer-assisted cartographic laboratories; the Center for Automation Research; a comfort perception laboratory; a quiescent plasma device (Q machine) for plasma research, and satellite remote sensing facilities.

The campus is home for the Engineering Research Center, a major vehicle for extending the technical and research expertise of The University of Maryland to businesses and industries throughout the State. The Center is both a catalyst for problem solving and a clearinghouse for information for technical information resources.

In 1985, the College Park Campus was awarded a five-year, \$16 million grant from the National Science Foundation to create a new Systems Research Center to facilitate research in artificial intelligence and computer-aided engineering. The Center complements a nationally recognized campus program of basic and applied research in computer science. In 1986, UMCP became one of 19 research institutions around the country to be linked via satellite to the Cray supercomputer facility at the University of California at San Diego.

The proximity of the campus to national research institutions such as the National Institutes of Health, the Smithsonian Institution, the USDA Beltsville National Agriculture Research Center and National Agricultural Library, and the Library of Congress ensures that prime research facilities are always available to the University's faculty and students.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since medieval times. They probably represent a kind of ecclesiastical dress, since many of the scholars of that period were members of monastic orders.

Most colleges and universities in the United States have adopted the uniform code for costumes drafted by an intercollegiate commission in 1893. Each of the three academic degrees—bachelor, master and doctor—has its own distinctive gown and hood. The bachelor's gown is distinguished by its long pointed sleeve. The master's gown has a longer, more narrow, closed sleeve extending below the knee; the arm fits through a slit at the elbow. The doctor's gown has a full, bell-shaped sleeve trimmed with three bars of velvet. The velvet trim on the gown can be black or a color indicating the wearer's general field of learning—for example, green for medicine or purple for law. A list of department colors follows.

| | |
|---------------------------------|-------------------------------|
| Agriculture/Maize | Music/Pink |
| Arts, Letters, Humanities/White | Nursing/Apricot |
| Business Administration, | Oratory, Speech/Silver Gray |
| Commercial Science/Drab | Pharmacy/Olive |
| Dentistry/Lilac | Philanthropy/Rose |
| Economics/Copper | Philosophy/Dark Blue |
| Education/Light Blue | Public Administration, |
| Engineering/Orange | Foreign Service/Peacock Blue |
| Fine Arts, Architecture/Brown | Public Health/Salmon |
| Forestry/Russet | Physical Education/Sage Green |
| Home Economics/Maroon | Science/Golden Yellow |
| Journalism/Crimson | Social Work/Citron |
| Law/Purple | Theology and Divinity/Scarlet |
| Library Science/Lemon | Veterinary Sciences/Gray |
| Medicine/Green | |

The most colorful and distinctive part of the academic costume is the hood extending down the back. The doctor's is the largest of the hoods and the bachelor's is the smallest. The bachelor's hood is often omitted.

Silk lining of various colors in the center of the hood indicates the college or university which conferred the degree. Consistent for all degrees is the cap, or mortar board, which has a tassel of black or another color indicating the field of learning. The tassel of the doctor's cap can be gold.

Academic Degrees

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide.

The first known degree was a doctorate bestowed by the University of Bologna, Italy, in the mid-12th century. Originally, the doctor's and master's degrees were used interchangeably, each indicating that the holder was qualified to instruct students. The bachelor's, or baccalaureate, degree only indicated entrance into a course of study preparatory to the doctorate or mastership. Gradually, though, the bachelor's degree came to mean successful completion of one level of study in advance of the higher degrees.

The Doctor's Degree

The term "doctor," meaning teacher or instructor, originated with the ancient Romans for those who lectured publicly on philosophical topics. During the Middle Ages, it was used as a title of honor for men of great learning. It was first made an academic title at the University of Bologna, which was allowed by the emperor to appoint doctores legum (doctors of laws). The University of Paris followed suit in the year 1145. Soon after, popes granted the universities the right to appoint doctores canonum et decretalium (teachers of the canon law) and, when the study of civil law was combined with that of the canon law, the title was changed to doctor utriusque juris (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title.

A doctorate is given beyond the baccalaureate degree and requires several years of advanced study, the successful completion of a thesis or dissertation, and written and oral examinations. The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Doctor of Dental Surgery, Doctor of Veterinary Medicine, Juris Doctor and Doctor of Pharmacy. These degrees

carry no implication of original research. The University of Maryland awarded the first two dental degrees in history, on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

The second type is a research doctorate representing prolonged periods of advanced study. A dissertation which usually accompanies the study is intended to contribute substantially to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

The Master's Degree

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. The word magister was used by the Romans as a title of honor, but its present meaning can be traced to the establishment of the oldest universities. Organized faculties as they now exist in universities were not known then; academic activity was limited to seven liberal arts. Those who were honored for their diligence and knowledge upon completion of their studies and who had already received the bachelor's degree were called magistri artium (masters of the liberal arts). In 1920, The University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents completion of a four-year course of college-level study and is the oldest academic degree used by American institutions of higher learning. It was the first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agricultural College, which later became The University of Maryland College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees in 1862.

Minister He Kang

Honorary Doctor of Science

He Kang, Minister of Agriculture, Animal Husbandry and Fishery for the People's Republic of China, is one of the chief architects of the master plan that has enabled China to feed and clothe her population—roughly one quarter of all the people in the world—by using only seven percent of the earth's cultivated land.

A teen-ager when his country was invaded by the Japanese at the onset of World War II, He Kang spent the war years defending his homeland while making every effort to continue the study of agronomy. In 1949 when the war was over, he became the director of the Bureau of Agriculture in Shanghai. At the time, He Kang was only 26 years of age, the youngest man in China to serve in such an influential position.

Many of the enormous strides made by China in agricultural science and education over the past forty years are due to the tireless efforts of He Kang. He is particularly well known for his ability to organize and implement many important projects in rural development, environmental protection, agricultural regionalization, and international cooperation and exchange programs. He has made significant contributions to advancing the

knowledge of tropical crops grown in China. In particular, his studies of rubber have increased China's potential for self-sufficiency of that extremely valuable crop. His other agrarian research includes soil fertility, cotton, land reclamation, and rice.

He Kang received his degree in agronomy from Guangxi University, Liuzhou, Guangxi, China, in 1946. He is the author of numerous publications and serves on many national and international agricultural committees, including the position of vice chairman of the Food and Agriculture Organization of the United Nations' Conference on World Food Supply.

Today he is awarded the honorary degree of Doctor of Science.

The Right Reverend John T. Walker

Honorary Doctor of Humane Letters and Convocation Speaker

John Thomas Walker, born in pre-Depression rural Georgia, raised in an inner city neighborhood of Detroit, and elected to the post of Episcopal Bishop of the Diocese of Washington and the Dean of the Washington Cathedral, has devoted his life to the ethic of social justice.

"I believe the church has a major role to play in dealing with such problems as hunger, crime and aging," he said at the 1977 installation ceremony which made him bishop over 97 parishes and more than 50,000 parishioners in Washington, D.C. and several Maryland counties.

Bishop Walker is one of official Washington's most prominent figures as well as a masterful administrator and an effective agent of change within his church. As one of the founding members of the Interfaith Conference of Metropolitan Washington, a group composed of Christians, Jews and Muslims, he has frequently spoken out on areas of social concern, such as nuclear armament and South African apartheid.

When he was arrested outside the South African Embassy in 1985, he said: "I submit that those who have not seen how Black South Africans are treated may indeed misunderstand what we do here. I have been to South Africa. . . I am led, I trust, by our Lord Christ to bear witness in support of our Christian brothers and sisters in South Africa. . . They live lonely and isolated lives. Frequently they must wonder if God cares for them at all."

Within the Episcopal Church, Bishop Walker was an early and vocal advocate of ordination of women and the revision of the church's venerable Book of Common Prayer. And, since the day of his ordination, he has urged his church to become more deeply involved in social justice issues.

The bishop is also known for his astute business sense, nowhere more evident than in the successful fund-raising effort he piloted and which took in more than \$16.5 million in four years to retire the debt on the Washington Cathedral. The campaign also provided the funds needed for additional construction to the cathedral which was begun in 1907 and is expected to be completed by 1989.

In addition to his diocesan responsibilities, Bishop Walker serves as chairman of the board of Africare, a non-profit relief organization dedicated to self-help development projects in Africa. He is also a current board member and former board chairman of the Black Student Fund, a private non-profit organization which raises scholarship funds for young black students educated in Washington area independent schools. He presently serves on the boards of the Eisenhower Foundation, the Riggs Bank and the ACLU National Advisory Council. In 1974, he headed the panel to select the chief of police of the District of Columbia and has been a long-time member of both the NAACP and the Urban League.

Bishop Walker received his baccalaureate degree in 1951 from Wayne State University in Detroit. That same year he became the first black student at the Virginia Theological Seminary and graduated from there in 1954. Returning to Detroit, he was ordained to the priesthood in 1955.

Bishop Walker is married to Rosa Maria Flores Walker, a naturalized American citizen from Costa Rica. They have three children: Thomas, Ana Maria, and Charles.

Today he is awarded the honorary degree of Doctor of Humane Letters.

Candidates for Degrees

The May 1986 class roster comprises degree candidates from the undergraduate and graduate programs at The University of Maryland College Park. As final action cannot always be taken for candidates by the time this program is printed, *the list of candidates here is tentative only*. The University reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of Records and Registrations.

Scholarship Honors

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listings of divisions, colleges or schools.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) have completed at least two years of work at The University of Maryland (60 semester hours, 30 of which were earned at the College Park Campus) and (2) have a scholastic average of B (grade point average of 3.000) or higher in University of Maryland work prior to the last semester of registration before award of degree.

May 1986 candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designations *Summa cum Laude* (if they ranked in the top two percent of the candidates in their respective divisions, colleges or schools), *Magna cum Laude* (if in the next three percent), or *cum Laude* (if in the next five percent), based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

General Honors Program

With General Honors
Rochelle Louise Anderson
Eve Benderly
William Earl Boyer
Michael Patrick Boyle
Cármen Lúcia Dourado da Cunha
Jessica Ann Giglio
Avital Grodzinsky**
Edmund Humphrey Harding
Michael Jay Lederman
Stella Elizabeth Lehmann
Gregory Robert Lyons
Ralph Roy Merritt
William Francis Russo**
Brooke Arlene Sipple
Janet Leanne Szpond
Michael Ronald Udwin
Christina Van Pelt

**Graduated December 20, 1985

Academic and Special Awards

Milton Abramowitz Memorial Prize in Mathematics awarded annually to a junior or senior student majoring in mathematics who has demonstrated superior competence and promise for future development in the field of mathematics and its applications.

Awarded to:

Eric Bruce Zeisel

Aerospace Engineering Department's Academic Achievement Award to the graduating senior in the Department who has attained the highest overall academic average.

Awarded to:

Sharon E. Seipel

The Agricultural Alumni Award to a senior who during his or her college career contributed most toward the advancement of the College of Agriculture.

Awarded to:

Hillary J. Poore

Agricultural Engineering Department's Outstanding Senior Award to a senior in agricultural engineering on the basis of scholastic performance, participation in the ASAE National Student Branch and other extracurricular activities.

Awarded to:

Andrew L. McCrackin

Alcoa Foundation Scholarship Awards to outstanding students in fire protection engineering.

Awarded to:

**Patricia A. McCarthy
Paul J. Richards**

The Alcoa Foundation Traffic Scholarship award of \$750 to an outstanding junior student majoring in transportation in the College of Business and Management.

Awarded to:

Kristin S. Sargeant

Alpha Rho Chi Medal awarded annually by Alpha Rho Chi fraternity for architecture and the allied professions to a graduating student of architecture who has made a distinctive contribution to school life, embodying the ideals of professional service and leadership.

Awarded to:

Timothy Brian Kearns

Alpha Zeta Award to the student in the College of Agriculture with the highest scholastic average at the end of his/her freshman year.

Awarded to:

Judith E. Sklar

Alumni Association-International Outstanding Young Man of the Class of 1986. Awarded for scholastic excellence, campus leadership and community service.

Awarded to:

Charles M. Gonzalez

Alumni Association-International Outstanding Young Woman of the Class of 1986. Awarded for scholastic excellence, campus leadership and community service.

Awarded to:

Deven C. McGraw

American Association of Textile Colorists and Chemists Award.

Awarded to:

Janet Lyn Barker

American Association of University Women, College Park Maryland Branch, in recognition of two outstanding women receiving advanced degrees.

Awarded to:

Carolyn Erickson Hill
Doctor of Philosophy
English Program

Cindy Ann Hawthorne
Master of Science
Chemistry Program

American Helicopter Society Outstanding Achievement Award to the student who has made the most outstanding contribution through service to the student branch.

Awarded to:

Steven A. Donaldson

American Institute of Aeronautics and Astronautics Outstanding Achievement Award to the student who has made the most outstanding contribution through scholarship and service to the student branch.

Awarded to:

Abraham Chaves

American Institute of Aeronautics and Astronautics Chairman's Certificate in recognition of service and leadership to the student chapter.

Awarded to:

George F. Halow

American Institute of Architects annually awards the AIA Certificate to a graduating student of architecture for academic achievement.

Awarded to:

Stephen James Wilczynski

American Institute of Architects annually awards the AIA Medal to a graduating student of architecture for outstanding overall academic achievement.

Awarded to:

Maurice Z. Schlesinger

American Institute of Chemists Award to an outstanding senior for scholarship in chemistry.

Awarded to:

Willie June Brickey

American Society of Agricultural Engineers Scholarship Award, provided by the Washington, D.C.-Maryland ASAE Section to an agricultural engineering student on the basis of achievement and need.

Awarded to:

Chiang C. Tai

American Society of Agricultural Engineers Student Honor Award presented by the national society in recognition of outstanding student activity.

Awarded to:

Elizabeth M. Turek

American Society of Agronomy Award to the outstanding senior graduating in agronomy who has demonstrated superior scholarship, leadership activities and personal traits.

Awarded to:

Luanne K. Vander Male

American Society of Mechanical Engineer's Senior Award presented to the senior member who has contributed most to the local chapter.

Awarded to:

Shirley H. Harmon

James R. Anderson Award for high achievement in geography to an outstanding undergraduate student in geography.

Awarded to:

Ann Delmar Beman

The Angel Award in honor of Michael Angel. A prize of \$100 awarded to an undergraduate English major who has shown distinction, extraordinary merit and perseverance in his or her studies at College Park.

Awarded to:

Joyce C. Owens

The Appleman-Norton Scholarship Award to a senior major in recognition of excellence in botany.

Awarded to:

**Nicholas B. Duck
Renate Hellmann**

School of Architecture Alumni Chapter Award to a graduating senior in recognition of exemplary service rendered to the School of Architecture and its student body.

Awarded to:

Eric John Jenkins

School of Architecture Alumni Chapter Award to Masters Degree recipients in recognition of exemplary service rendered to the School of Architecture and its student body.

Awarded to:

**Lauren Ann Goldberg
Pedro Manuel Porro**

Baltimore County Volunteer Firemen's Association Grant for tuition and fees to a student who will enroll in fire protection engineering. This award is normally for four years.

Awarded to:

**Pamela A. Cross
Robert T. Vaccaro, Jr.**

Bethune Citizenship Award. Presented annually to the black junior or senior student who has contributed most significantly to the advancement of the black student community on the College Park Campus.

Awarded to:

Rohini A. Parikh

The Carl Bode dissertation prize in American literature in 1984-1985.

Awarded to:

Robert Lee Feldman

Harry C. Byrd Award. Presented annually to the outstanding senior male who has typified the model student and contributed significantly to student interests and concerns.

Awarded to:

Gregory Robert Lyons

Sally S. Byrd Award. Presented annually to the outstanding senior female who has typified the model student and who has contributed significantly to student interests and concerns.

Awarded to:

Lauren Denise Jones

Chemical Society of Washington Award to the outstanding senior in the Department of Chemistry.

Awarded to:

Tuanh Tonnu

The Carroll E. Cox Scholarship Award to the outstanding graduate student in the Department of Botany during the last year.

Awarded to:

Marcia J. Holden

Creative and Performing Arts Scholarships in Theatre.

Awarded to:

**Bryan Ashby
Amie Bermowitz
Tina Marie Casamento
Carla Chrambach
Tonya Fogarty
Ann Grunberg
John Kennedy
Loretta Kennedy

AFROTC Awards

The Alumni Cup. Presented to the senior cadet who has achieved the highest cumulative grade point average, while at the same time demonstrating the highest degree of officer potential.

Awarded to:

Christian O'Keefe

American Defense Preparedness Association Award. Presented to the outstanding Senior Cadet who has received no grade in the advanced ROTC courses less than B, is in the upper half of total senior enrollment at The University of Maryland, has participated actively in athletics and/or campus activities, and has demonstrated outstanding leadership qualities.

Awarded to:

Robert Shores

The American Legion Outstanding Senior Award. Presented to the cadet best described as the Outstanding ROTC Senior.

Awarded to:

Donald Forrer

American Legion ROTC General Military Excellence Awards. Presented each year to a senior (Gold Award) in the upper 25 percent of the ROTC class, and who has demonstrated outstanding qualities in military leadership, discipline and character.

Awarded to:

Melissa Dafnis

The American Legion ROTC Scholastic Award. Presented each year to an outstanding senior (Gold Award) who is in the upper 10 percent of the class in the University and the upper 25 percent of the ROTC class, and who has demonstrated high qualities in military leadership.

Awarded to:

Thomas Foley

Commandant of Cadets Award. Presented to a senior cadet for outstanding performance as a Support Officer. This cadet most successfully exemplifies the "Complete Staff Officer."

Awarded to:

Alexander Holder

Daughters of American Revolution. Presented to a senior cadet who is in the upper 25 percent of both the ROTC class and the University, and who demonstrates high qualities of dependability, good character, adherence to military discipline, and leadership. Also demonstrates a fundamental and patriotic understanding of the importance of ROTC training.

Awarded to:

Julie Hall

Disabled American Veterans Award. Presented each year to the senior cadet who has demonstrated outstanding leadership, scholarship, and citizenship.

Awarded to:

Julie Haynes

Awarded to:

Davis Bowman

Society of American Military Engineers ROTC Award Nomination. The cadet selected for this national award is recognized as one of 20 outstanding AFROTC senior cadets pursuing an engineering curriculum.

Award recognizes outstanding academic performance and professional officer potential.

Cadet nominated:

Paul Kolodziejcki

A Walking Tour through the Campus

Located on the 1,315-acre College Park Campus are dozens of interesting educational and research facilities. Below are several you may wish to visit along a walking tour of the campus.

Memorial Chapel (Bldg. 009), Regents Drive.

A schedule of multi-denominational services can be obtained in the North Administration Bldg.

North Administration Building (Bldg. 052), Regents Drive. This facility houses the Offices of Undergraduate Admissions; Records and Registrations; Student Affairs; Student Financial Aid, and Resident Life.

Hornbake Library (Bldg. 147), corner of Regents and Campus Drives. Completed in 1973, the library is one of the finest in the nation. In addition to serving undergraduate students, it also houses the graduate level College of Library and Information Services.

Tawes Fine Arts Center (Bldg. 141), Campus Drive. Offices of the Department of Communication Arts and Theatre and the Department of Music are housed in this building. University Theatre is also located here.

Art-Sociology Building (Bldg. 146), corner of Campus and Preinkert Drives. Home for both the Departments of Art and Sociology and location of the Art Library, it also houses the campus Art Gallery, which features fine art exhibitions.

School of Architecture Building (Bldg. 145), Campus Drive. Displays of student architectural designs may be seen in this building.

McKeldin Library (Bldg. 035), Campus Drive. McKeldin contains materials for the use of graduate students and faculty as well as the Marylandia, East Asia, Katherine Anne Porter, and historical manuscripts and archives collections. It is also home for Testudo, the bronze statue of a diamondback terrapin, the UMCP mascot.

Stamp Union (Bldg. 163), Campus Drive. You can obtain a building directory and schedules of events and activities at the information desk in the front lobby.

Cole Student Activities Building (Bldg. 162), Campus Drive. With a seating capacity of 14,500, the arena of Cole is used for basketball games, track meets, wrestling matches, indoor tennis, commencements, concerts, academic testing, and many other indoor activities. Other areas of the building contain small gymnasiums, weight rooms, a swimming pool, classrooms, faculty offices, a ticket booth for athletic events, the Department of Intercollegiate Athletics and the Air Force Aerospace Studies Program (AFROTC).
